

Aim:

To learn advanced Windows system management, including **System Configuration, UAC Settings, Resource Monitoring, Registry Editor, and Command Prompt.**

Procedure:

1. **Open System Configuration (msconfig)**
Access and configure system startup options, services, and boot settings.
2. **Modify UAC Settings**
Change User Account Control settings to understand how it manages security prompts and access control.
3. **Use Computer Management**
Utilize Computer Management tools for disk management, user management, and system performance tasks.
4. **Check System Information (msinfo32)**
View detailed system information, including hardware resources and software environment.
5. **Monitor Resources (resmon)**
Use Resource Monitor to analyze CPU, memory, disk, and network usage.
6. **Execute Commands in Command Prompt (cmd)**
Perform basic file, directory, and system operations using command-line tools.
7. **Explore Registry Editor (regedit)**
Navigate and edit the Windows Registry for advanced system configuration and troubleshooting.

TASK 2 : SYSTEM CONFIGURATION

What is the name of the service that lists Systems Internals as the manufacturer?

PsShutdown

✓ Correct Answer

Whom is the Windows license registered to?

Windows User

✓ Correct Answer

What is the command for Windows Troubleshooting?

C:\Windows\System32\control.exe /name Micr

✓ Correct Answer

What command will open the Control Panel? (The answer is the name of .exe, not the full path)

control.exe

✓ Correct Answer

TASK 3 : CHANGE UAC SETTINGS

What is the command to open User Account Control Settings? (The answer is the name of the .exe file, not the full path)

UserAccountControlSettings.exe

✓ Correct Answer

TASK 4 : COMPUTER MANAGEMENT

What is the command to open Computer Management? (The answer is the name of the .msc file, not the full path)

compmgmt.msc

✓ Correct Answer

At what time every day is the GoogleUpdateTaskMachineUA task configured to run?

6:15 AM

✓ Correct Answer

What is the name of the hidden folder that is shared?

sh4r3dF0Ld3r

✓ Correct Answer

TASK 5 : SYSTEM INFORMATION

What is the command to open System Information? (The answer is the name of the .exe file, not the full path)

msinfo32.exe

✓ Correct Answer

What is listed under System Name?

THM-WINFUN2

✓ Correct Answer

Under Environment Variables, what is the value for ComSpec?

%SystemRoot%\system32\cmd.exe

✓ Correct Answer

TASK 6 : RESOURCE MONITOR

What is the command to open Resource Monitor? (The answer is the name of the .exe file, not the full path)

resmon.exe

✓ Correct Answer

TASK 7 : COMMAND PROMPT

In System Configuration, what is the full command for Internet Protocol Configuration?

C:\Windows\System32\cmd.exe /k %windir%\s

✓ Correct Answer

For the ipconfig command, how do you show detailed information?

ipconfig /all

✓ Correct Answer

TASK 8 : REGISTRY EDITOR

What is the command to open the Registry Editor? (The answer is the name of the .exe file, not the full path)

regedt32.exe

✓ Correct Answer

💡 Hint

Result:

TryHackMe platform **Windows Fundamentals 2** tasks have been successfully completed.
